## **Alchemy Glass & Light Launches a New Collection of Internally Illuminated Art Mirrors**

*Mirror, Mirror on the wall, who is the fairest of them all? Meet the Full Moon Mirror Collection by Alchemy Glass & Light.*

Los Angeles, CA – Alchemy Glass & Light – a boutique manufacturer of handcrafted sinks, mirrors, lighting and countertops based in downtown Los Angeles - has introduced a new collection of unique and stunning statement mirrors which cast a patterned glow on surrounding surfaces. Entirely one-of-a-kind, these artistic creations are the work of Company Owner and Artist Steve Weinstock. Large, sculptural and self-illuminated, the mirrors are created by placing precious minerals and metals within fused glass, which allows a vibrant and natural color palette to evolve. Many of the mirrors feature fragmented glass patterns in a variety of heavenly hues. When lit, the mirrors are reminiscent of the halo effect: which is when the sun’s corona explodes, and forms a halo around the moon during a solar eclipse. As a striking, textured piece of art, the Full Moon Mirrors make a dramatic statement when placed in a vestibule, master bedroom or as the focal point of the great room.

Terra Nova

Cosmic Burst

Unlike other mirrors, which lie flat against the wall, the mirrors in this collection curve up and away from the wall up to eight inches, giving them a dramatic depth of presence. Different mirror styles will cast their own unique patterned glow on the wall when lit. This unmatched collection of mirrors is illuminated from within for a luxurious and diamond-like glow.

“The glass colors and textures of the Full Moon Mirrors are stunning,” said Weinstock. “Let’s face it: beauty is multidimensional – so should be the piece that reflects one’s beauty.”

\*\*\*

The mirrors are available in the Celestial, Prestige and Cienega designs (please see corresponding proof sheet). Lighting hardware is enclosed behind the mirror and calls for a 40 watt, circular T5 energy-saving florescent bulb, included.

Alchemy Glass & Light has been hand-crafting unique glass art sinks, countertops, lighting and accessories for over 15 years. Their unique, one-of-a-kind collections are hand-made in their all-inclusive design studio in Los Angeles. Under the direction of master artist and company owner, Steve Weinstock, precious minerals and metals undergo a transmutation within layers of glass through specific temperature progressions. From the precise heating to the controlled cooling of the raw glass, every step of their superior annealing process has been tested and refined to give each product the strength and hardness to weather a lifetime of use. Their products can be seen in some of the finest hotels, restaurants and residences around the world.
